

# OUR PLEDGE

Bosworth  
Independent  
College

## To protect our school community

We are committed to providing the **best possible care** so that our school community **feels safe and confident** about living and learning at Bosworth.

We recognise that guidance to fight COVID-19 is constantly evolving, therefore **we will review and adapt our pledge** prior to the reopening of the College.

### YOUR ARRIVAL

We will provide a **safe transfer** from the airport to our secure College facilities

- We will meet and greet students at the airport. Our drivers will wear a facemask and they will have received COVID-19 health and safety training. All vehicles will be sanitized prior to collecting you.
- We aim for all students to be tested for COVID-19 on arrival.
- If a quarantine is imposed by the authorities, we will collect students from the airport and take them to our safe and secure campus where they will be safely isolated with friends in small clusters.
- Upon arrival, students' bags will be disinfected, before they are taken directly to their Boarding House.
- Our medical team will take student temperature and review their medical questionnaire.
- Students will be virtually enrolled - passport scanning & visa checks conducted under controlled conditions with UV cleaning wands in between each student.

### YOUR HEALTH

We will provide **outstanding care and support** throughout your stay

- Our College Nurse will monitor the health and wellbeing of all students. Bosworth has long-established relationships with local doctors' clinics.
- We will take daily temperature checks, using infrared technology, of students and staff.
- All students and staff will be required to wear masks or face coverings in communal areas.
- All students will receive a health and wellbeing training session as part of their induction.
- Every student will be provided with a CARE KIT on arrival. It includes items for at least two weeks: facemasks, hand sanitiser and disinfectant wipes. Hand sanitiser gel will be freely available around the College.
- We will provide outstanding care and support during a student's stay. The majority of health issues can be managed by the College Nurse.
- We will provide health and safety training to all staff in relation to COVID-19.

### YOUR SCHOOL

We will ensure you study and stay in a **safe, clean and protected campus**

- We will have enhanced cleaning schedules throughout the campus, but especially in public and high contact areas.
- We will not allow outside visitors on campus until further notice. There will be special procedures for deliveries.
- We will have a stock of essential personal items for sale on campus to help any students that happen to run out.
- There will be restrictions on Exeats and time permitted off campus at evenings and weekends.
- Online or classroom-based clubs will be running as normal as well as solo physical activities such as badminton, tennis, table tennis, yoga, pilates, knitting and piano playing.

### YOUR SUCCESS

We will provide an **outstanding learning experience**

- If quarantine conditions are in place, every student will receive a one-to-one welcome on campus and an online induction.
- The boarding houses will be open and ready to welcome students from 4 September 10:00 until 9 September 17:00. If students cannot arrive between those times their induction will start online before face-to-face classes and activities begin, giving them the opportunity to make new friends and learn about the College.
- We will be welcoming boarding students again prior to half-term from 12-18 October, with a quarantine period from 19 October to 2 November.
- If students display symptoms of COVID-19, we will isolate them safely on campus, so they can continue their studies online.
