Support for Medical Students

Bosworth Independent School offers a full programme of support and in-depth preparation for Medicine, Veterinary Science or Dentistry. In the UK, only about 15% of applicants to medical schools gain a place. Our programme will develop your skills, confidence and experience to succeed in this highly competitive field.

www.bosworthschool.co.uk

71 students went on to study Medicine, Dentistry, Pharmacy, Biomedical Science and related degrees between 2016-2023.

Destinations include: University College London (UCL), King's College London, University of Bath, University of Manchester, Lancaster University and many more!

Support for Medical Students

Preparation for Admissions Tests (UCAT)

Admissions tests help universities choose between many highly academic applicants. A good score in these tests will increase your chance of getting an interview. We support you to prepare for medicine admissions tests, including the University Clinical Aptitude Test (UCAT). We will help you to develop time management skills and learn about strategies to boost your test scores.

Valuable Work Experience and Voluntary Work

Bosworth supports you to find suitable work experience placements and voluntary work. You will have an exciting opportunity to apply for work experience and long-term volunteering at our local NHS hospital. You will also have a chance to volunteer at care homes or charity shops and be encouraged to participate and raise money in the school, local community and charity events.

Individual Advice and Support

Weekly workshops with our Medic Coordinator in Years 12 and 13 will guide you through the application process, from entry requirements through to personal statements and interview preparation. One-to-one meetings with our Director of Higher Education give you the individual advice and support you need, allowing you to develop your own action plan.

Everyone is engaged and wants to do well and that's useful because in lessons people are really focussed and ask interesting questions which I may not have thought of, so you learn something new.

Veterinary Science
University of Liverpool

Academic Challenges and Competitions

At Bosworth you can carry out a specific research project or EPQ (Extended Project Qualification) on a medical topic. You will have the chance to enter competitions such as the Chemistry, Biology or Physics Olympiads and Maths Challenges, which will help your application to stand out.

Co-Curricular Programme

We offer a variety of co-curricular activities to develop your wider skills, including student leadership opportunities. A broad range of leadership, organisational and communication skills will increase your chances of being a successful university candidate.

Interview Preparation

You will be offered three sets of interviews:

1) A practice interview with an experienced member of staff, followed by individual feedback.

2) A formal interview with a representative of a university. The interview will apply the criteria they use in assessing and selecting their own medical students, thus will provide you with a realistic evaluation of your performance.

3) You will also experience the fast pace and challenge of a 'Multiple Mini Interview' (MMI), moving between several 5-minute interview stations, each with a different tutor, designed to test a wide range of skills and knowledge.

With the individual feedback and mock interviews, you will be more prepared and confident in your medical interview.

Regular Seminars

Throughout Years 12 and 13 you will meet regularly with other students and our Medic Coordinator. You will gain confidence in discussing current issues in medicine, understanding the NHS, getting the most out of work experience as well as preparation and practice for interviews.

Most of the teachers are examiners in their subjects, so they will give you exam techniques and tips that I don't think you'd necessarily get anywhere else. They're also passionate, which makes it more interesting.

Noor
Dentistry at King's College London

Visits and Speakers

You will have the opportunity to attend the 'Oxford and Cambridge Online Conference', participating in workshops on Medicine, Dentistry or Veterinary Science to gain a realistic understanding of what admissions tutors are looking for. The session on 'Making a Competitive Application' helps you to understand how to make your application stand out.

You will also have a chance to meet and talk to Bosworth's Alumni, who will share their personal experience as Medical school students as well as thoughts on their course and university.

71

Students went on to study Medicine, Dentistry, Pharmacy, Biomedical Science and related degrees between 2016-2023.

Christine | Malaysian | A*A*A*A* Medicine at Brighton and Sussex Medical School

"The teaching at Bosworth is very advantageous as it not only focuses on theory but it also equips students with practical skills. The interactive teaching methods used at Bosworth enables students to truly understand and grasp the contents taught during lessons."

Catrina | British | A*A*A Veterinary Science at the University of Liverpool

"If you have the drive to study medical sciences, then Bosworth will help you get there. They are focussed, which will help you get what you want. Being in a diverse community has helped me hone my communication skills."
